Quality guaranteed. 100% made in Italy.

Un vero letto anzi meglio.  
Un vero letto imbottito.  
Grazie al collaudato meccanismo è facile  
e veloce passare da divano al letto e poi  
di nuovo dal letto al divano.

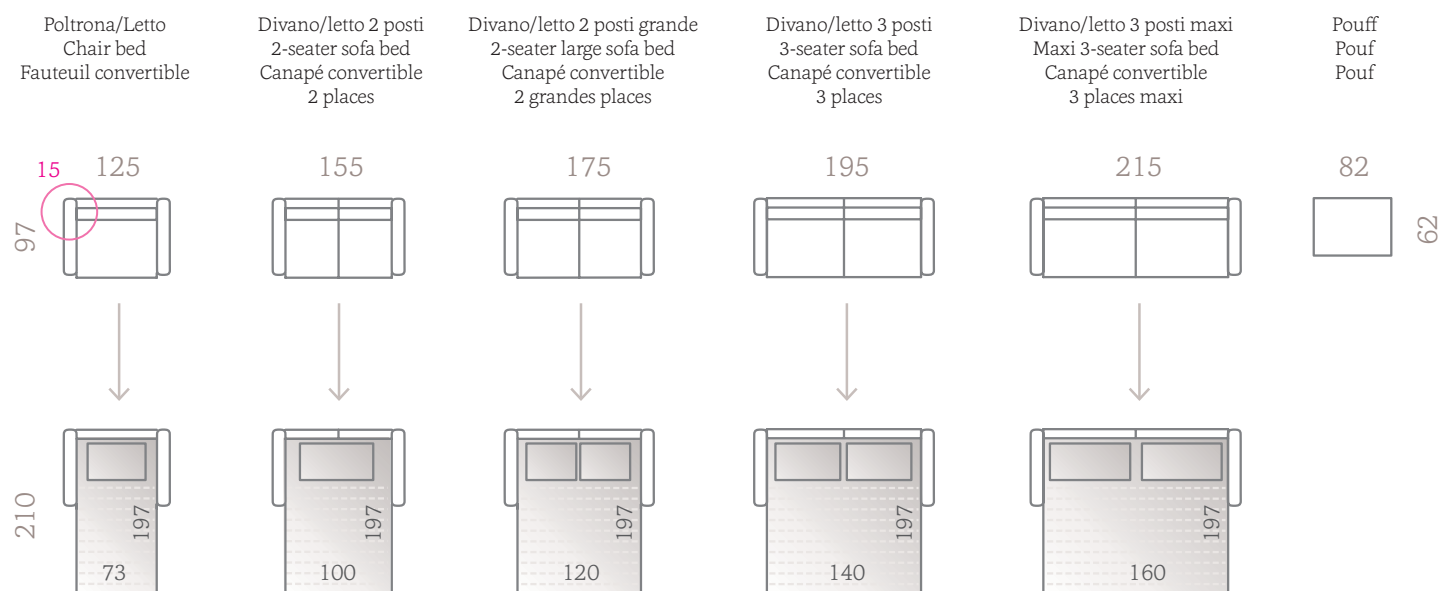

A real bed, only better.  
A real padded bed.  
The proven mechanism makes it fast and  
easy to switch from the sofa to the bed  
and then again from the bed to the sofa.

Un vrai lit, sinon mieux.  
Un vrai lit rembourré.  
Grâce au mécanisme testé,  
la transformation de canapé à lit et  
inversement est un jeu d'enfant.

## C. Slim

Il bracciolo scompare... Rimane un fianco di contenimento...  
Per una versione basica adatta a spazi contenuti a integrarsi con  
altri arredi o a farsi contenere da un'armadio a ponte

The armrest disappears... The side of the sofa remains... For a basic  
version suitable for confined spaces to go with other furniture or to  
fit into a bridge wardrobe

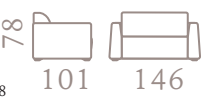

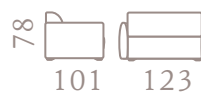

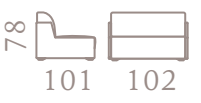

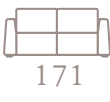

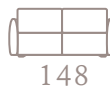

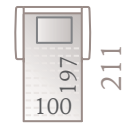

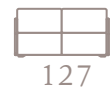

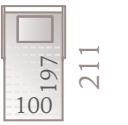

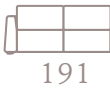

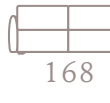

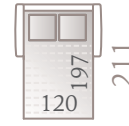

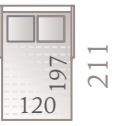

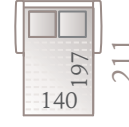

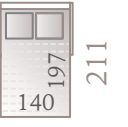

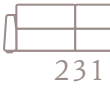

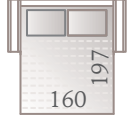

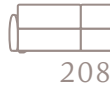

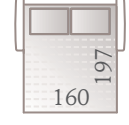

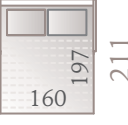

L'accoudoir disparaît... Seule reste la partie latérale contenante...  
Pour une version basique adaptée aux petits espaces à intégrer à  
d'autres meubles ou pour s'insérer dans une armoire en pont

Braccioli e schienali sono montati con innesto a baionetta... Dunque pratici e facili da montare e smontare... Per il trasporto... Ma soprattutto per la sfoderabilità assolutamente completa per l'igiene e la pulizia.

Un solo movimento

per passare dal divano al letto: lo schienale ruota insieme alla seduta senza rimuovere i cuscini, creando così un comodo e pratico letto... Meccanismi ad alta resistenza e servoassistiti...

Armrests and backrests have bayonet junctions... So practical and easy to assemble and disassemble... For transportation... But especially for the full removal of covers for hygiene and cleaning.

A single movement

converts from a sofa into a bed with a single movement: the backrest turns together with the seat without removing the cushions, thus creating a comfortable and practical bed... High-resistance, power-assisted mechanics

Accoudoirs et dossiers montés avec un mécanisme à baïonnette... Par conséquent pratiques et faciles à monter et à démonter... Pour le transport... Mais surtout pour permettre un déhoussage complet pour une meilleure hygiène et un nettoyage facilité.

Un seul mouvement

pour passer du canapé au lit : le dossier pivote en même temps que l'assise sans déplacer les coussins, pour un lit commode et pratique... Mécanismes haute résistances et servo-assistés...

Per spostare avanti e indietro  
Il divano senza sforzo è sufficiente  
Alzare due leve a scomparsa, tra  
Il bracciolo e la seduta, che consentono  
Di abbassare 4 robuste ruote alzando  
così tutto il divano. Facilissimo quindi  
spostarlo senza sforzo. Quando torna al  
suo posto, Le leve si abbassano, le ruote si  
sollevano e scompaiono e il divano  
Poggia nuovamente sui suoi piedini.  
Facile, veloce, pratico e sicuro

To move the sofa back and forth  
Without effort, simply raise the two  
levers on the sides, concealed between the  
armrest and the seat, that allow to lower  
4 sturdy wheels and thus lift All the sofa.  
Then, it can be easily moved without effort  
when it returns to its place, The levers  
are lowered, the wheels Are raised and  
disappear, and the sofa rests on its feet  
again. Easy, fast, convenient, and safe

Pour déplacer le canapé vers l'avant  
et vers l'arrière sans effort, il suffit de  
Soulever les deux leviers dissimulés entre  
l'accoudoir et l'assise, permettant  
D'abaisser 4 solides roues et de relever  
L'intégralité du canapé. Très simple à  
déplacer sans effort. Lorsque le canapé  
revient en place, les leviers s'abaissent,  
les roues se soulevent et disparaissent  
permettant Au canapé de reposer à  
nouveau sur le sol, sur ses pieds.  
Facile, rapide, pratique et sans danger

## Certificazione del meccanismo dei divani letto Felis

I meccanismi utilizzati da Felis Felix srl sono certificati dal CATAS, in particolare la collezione « Dolce Sognare – Night and Day » e la collezione ARMAND . Il CATAS è l'istituto italiano per la certificazione, ricerca e prove nel settore legno-arredo. I test CATAS sono riconosciuti dai maggiori mobiliari internazionali (ios IKEA, Third Party Center per le norme CARB californiane , BIFMA USA, BS UK....)

I test si riferiscono alla normativa europea

**ENI 1725**, in particolare :

**- Esigenze di sicurezza secondo la norma EN 1725:**

**1998 par 6:** controllo di assenza di sbavature e di angoli taglienti, con distanze tra gli elementi in contatto con gli utenti superiori a 25 mm

**- Resistenza all'affaticamento verticale secondo la norma EN 1725: 1998 par 7.3:** 10000 cicli di 100 kg su i meccanismi senza deformazioni importanti

**- Resistenza statica verticale secondo la norma EN 1725: 1998 par 7.6:** carico progressivo di 100 kg sui meccanismi, per 10 volte, senza rotture.

**- Resistenza dei longoni secondo la norme EN 1725: 1998 par 7.7:** applicazione per un minuto di una forza di 120 kg sulla parte centrale delle traverse laterali senza deformazioni importanti.

**- Normativa europea ENV 13759:** 2000 di apertura e chiusura del meccanismo che deve resistere ad un test continuo di 2000 aperture e chiusure.

I test sono stati tutti positivi con brillanti risultati, i nostri meccanismi hanno ottenuto la certificazione europea. Su ognuno di essi troverete un adesivo con il logo del CATAS a dimostrazione della qualità.

## Certification of the Felis sofa beds mechanism

The mechanisms used by Felis Felix srl are certified by CATAS, in particular the «Sweet Dream - Night and Day» collection and the ARMAND collection. The CATAS is the Italian institute for certification, research and testing in the wood and furniture industry. The CATAS tests are recognized by the major international furniture makers (is IKEA, Third Party Center for the CARB Californian standards, BIFMA USA, BS UK...)

The tests relate to European standard

ENI 1725, in particular:

**- Safety requirements according to EN 1725:1998**

**Clause 6:** Check for the absence of burrs and sharp corners, with distances between elements in contact with the users of more than 25 mm

**- Resistance to vertical fatigue according to EN 1725:1998 Clause 7.3:** 10000 cycles of 100 kg on the mechanisms without gross distortion

**- Vertical static resistance according to EN 1725:1998 Section 7.6:** progressive load of 100 kg on the mechanisms, for 10 times without failure.

**- Resistance of the bed frame sided according to standards EN 1725:** 1998 Clause 7.7: Application for a minute a force of 120 kg on the center line of the bed frame side members without gross distortion.

**- European standard ENV 13759:** 2000 for opening and closing of the mechanism which must withstand a continuous test of 2,000 openings and closings.

The tests were all positive with brilliant results, our mechanisms have been certified by the European Union. On each of them you will find a sticker with the logo of the CATAS as a demonstration of their quality.

## Certification du mécanisme des canapés lits

Les mécanismes utilisés par Felis Felix srl, ont été certifié par le CATAS, en particulier la collection « Dolce Sognare - Night and Day) et la collection ARMAND. Le CATAS est le centre italien de recherche, développement et laboratoire d'essais pour le secteur du bois et ameublement. Les tests CATAS, réputés pour leur sérieux, sont acceptés et reconnus par les principales sociétés d'ameublement françaises et internationales (ios IKEA, Third Party Center pour les normes CARB californiennes, BIFMA USA, BS UK....)

Les tests se réfèrent à la normative européenne

**ENI 1725**, et en particulier:

**- Exigences de sécurité selon la norme EN 1725: 1998**

**par 6:** contrôle d'absence de bavures et d'angles vifs, avec distances entre les éléments en contact avec l'utilisateur majeures à 25 mm

**- Résistance à la fatigue verticale selon la norme EN 1725: 1998 par 7.3:** 10000 cycles de 100 kg sur le mécanisme sans déformations importantes

**- Résistance statique verticale selon la norme EN 1725: 1998 par 7.6:** chargement progressif de 140 kg sur différents points du mécanisme, pour 10 fois, sans rupture.

**- Résistance des longerons selon la norme EN 1725: 1998 par 7.7:** application pour une minute d'une force de 120 KG sur la partie centrale des traverses latérales sans déformations majeures

**- Normative européenne ENV 13759:** 2000 d'ouverture et fermeture du mécanisme, qui doit résister à un test continu de 2000 ouvertures et fermetures.

Les tests ayant été positifs et les résultats brillants, nos mécanismes ont obtenu la certification européenne. Sur nos mécanismes vous trouverez un logo adhésif ou un tag avec le logo CATAS et les références des tests.
