Stretching machine

Designed in collaboration with the University of Zaragoza to foster the stretching of the spine, thus reducing the muscular contractions and soothing the pain to the cervical vertebrae

How it works

The exclusive inclined section core uses the weight of the body to stretch the back, thus increasing the space between the vertebrae

How it is made

- Elioform and Eliosoft support foam layers with the MagniStretch technology
- Memoform Quilting
- 3D breathable band
- Cover in natural viscose and Outlast for breathability and temperature regulation

PATENTED WELL-BEING

MagniStretch uses a technological patent obtained in cooperation with the Mechanical Engineering Department of the Zaragoza University and as the result of a complex program of ergonomic tests.

MAGNISTRETCH. STRETCHING-MACHINE

MagniStretch is a revolutionary mattress designed to stretch and decompress your spine while preventing compacted vertebrae. Your body will be rejuvenated thanks to an increased blood flow that revitalizes your discs.

HEALTHY SLEEP

MagniStretch ensures long-term benefits to the back, reducing muscular contraction and vertebrae compacting, and reducing neck and back pain due to bad postural habits. Night after night, you will experience the benefits of MagniStretch on your body and in the quality of your life.
